Create eye contour by applying a grey and purple shade to the crease line, blending outwards. With a small angled brush, draw from the inner corner of the eye and continue outwards. Flick eyeliner out and upwards at the outer corners. Apply lashings of

mascara. Using tweezers, piece on a false lash set close to roots. Keep lip colour pale, to make your eye make-up stand out. Part hair and blow-dry straight. Tease through the crown and twist into a French roll. Tuck the roll under and secure with pins.
