- Throw a plush faux-fur coat over layered satins to add louche glamour to an otherwise girly look.
- Rich shades of claret, emerald and saffron-yellow refresh your standard black, camel and grey.
- Team a romantic blouse with a midi-skirt, or bell bottoms and bouncy hair. It's all about va-va-voom.

Find your best fit:

Disco-inspired designs love curves (think Jennifer Lopez), but boyish figures can also benefit from the figure-boosting powers of faux-fur and flares.
